PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1c.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

A possible military complex is located in the southwest section of the city of Drevini (Figure 1). Three areas (Figures 2 and 3), each separately fenced, are possible troop housing installations. The first area contains one administration building, two barracks, two storage buildings, and two support buildings. The second area contains an athletic field, five barracks, an administration building, a storage building, and

two support buildings. The third area contains one barracks, administration building, five support buildings, and three unidentified dark lines on the earth. Good all-weather roads serve the complex, but there is no rail service.

The installation was covered by KEY-HOLE missions between [REDACTED]. No significant changes were observed during that period.
